**CONSENT ORDER**

TO PRACTICE MEDICINE AND SURGERY :  
IN THE STATE OF NEW JERSEY :  
\_\_\_\_\_ :

This matter was opened to the New Jersey Board of Medical Examiners upon receipt of information that Respondent entered into a Consent Agreement and Order on September 14, 2005 with the New York State Department of Health, State Board for Professional Medical Conduct ("New York Board") which, upon application by Respondent, was made a part of a Consent Order filed by the New York Board on October 12, 2004. On or about September 9, 2005, the New York Board filed a Statement of Charges against Respondent alleging in the First Specification that Respondent committed professional misconduct in violation of N.Y. Educ. Law §6530(4) by practicing the profession of medicine with gross negligence on a

particular occasion; alleging in the Second Specification that Respondent committed professional misconduct in violation of N.Y. Educ. Law §6530(3) by practicing the profession of medicine with negligence on more than one occasion; alleging in the Third Specification that Respondent committed professional misconduct in violation of N.Y. Educ. Law §6530(6) by practicing the profession of medicine with gross incompetence; and alleging in the Fourth Specification that Respondent committed professional misconduct in violation of N.Y. Educ. Law §6530(5) by practicing the profession of medicine with incompetence on more than one occasion. These allegations were based on Respondent's obstetrical medical care to Patient A who was admitted to the United Memorial Medical Center in Batavia, New York on or about March 14, 2003 for a Caesarean section to be performed by Respondent and was discharged on or about March 22, 2003. Respondent did not contest the Second Specification, Negligence on More than One Occasion, and agreed in the Consent Agreement and Order for his medical license to be suspended for a one year period, with the suspension to be stayed. Respondent also agreed to be placed on probation for three (3) years subject to certain terms which include a requirement for a practice monitor and the completion of a continuing medical education program for a minimum of 20 credit hours in the area of Obstetrics, with particular emphasis in the field of Operative Obstetrics. Respondent currently practices medicine in the State of Iowa.

The parties being desirous of resolving this matter and the Board finding the within Order to be adequately protective of the public interest and for good cause shown;

IT IS, THEREFORE ON THIS 9TH DAY OF MARCH, 2006,  
HEREBY ORDERED AND AGREED THAT:

1. Respondent's license to practice medicine and surgery in the State of New Jersey shall be and hereby is suspended for a period of one year effective on the entry date of this Order, with such suspension to be stayed.

2. Respondent's license to practice medicine and surgery in the State of New Jersey shall be and hereby is placed on probation for a period of three years, effective on the entry date of this Order.

3. In the event that Respondent wishes to practice medicine and surgery in the State of New Jersey prior to the conclusion of the period of probation, Respondent shall provide the Board prior notice and shall be scheduled to appear before a committee of the Board to demonstrate fitness and competency to practice; provide a full description of Respondent's employment and practice plans for practice in New Jersey and all professional addresses and telephone numbers; and submit a current report of the status of Respondent's compliance with the terms of the Consent Order, effective on October 19, 2005, by the New York State Department of Health, State Board for Professional Medical Conduct. On any such application, the Board reserves the right to require an appearance before a

committee of the Board and to impose additional probationary terms  
in accordance with its review of the information presented.
